VEDANT MISHRA

CLOUD COMPUTING | DEVOPS | CLOUD INFRASTRUCTURE | PLATFORM ENGINEERING

Pune, Maharashtra, India | +91-88477-33697 | vedantmanikmishra@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Third-year B.Tech CSE (Cloud Computing) student with internship experience building **AWS serverless** apps on **Lambda, API Gateway, DynamoDB, S3, IAM** and **CloudWatch**. Builds **Python/FastAPI** backends, **Docker**-based deployment tooling and **GitHub Actions CI/CD** pipelines with a security-first focus on authentication, least privilege and auditability. Seeking Cloud, DevOps, DevSecOps and Platform Engineering internships.

TECHNICAL SKILLS

Cloud: AWS (Lambda, API Gateway, S3, DynamoDB, IAM, CloudWatch, Cognito, CloudFront, EC2, RDS), Oracle Cloud (OCI), Serverless
DevOps & CI/CD: Docker, Docker Hub, GitHub Actions, CI/CD Pipelines, Containerization, Deployment Automation, Render
Security: AWS IAM, JWT, bcrypt, RBAC, GitHub Secrets, Rate Limiting, Security Headers, Audit Logging, Non-Root Containers
Backend: Python, JavaScript, SQL, FastAPI, Node.js, Express, REST APIs, SQLAlchemy, Pydantic, boto3
Data & Testing: MySQL, DynamoDB, SQLite | pytest, Jest, Automated Testing
Systems & Tools: Linux (Ubuntu), Git, GitHub, Prometheus Metrics, Networking Fundamentals, React, Vite, JSON

PROFESSIONAL EXPERIENCE

Cloud Engineering Intern | HEPro AI — Nov 2025 – Jan 2026

- Designed and deployed a **serverless** task-tracker application on AWS using **AWS Lambda**, **Amazon API Gateway**, **Amazon DynamoDB** and **Amazon S3** static hosting with **CloudFront** delivery.
- Developed **RESTful APIs** and Lambda-based backend workflows to create, store and retrieve user tasks in DynamoDB.
- Implemented **AWS IAM**-based access controls for service permissions and **Amazon Cognito** user authentication.
- Used **Amazon CloudWatch** logs and metrics for application monitoring, logging and troubleshooting.

Cloud Computing Trainee | Oracle Academy & Oracle University (Training Program)

- Completed structured training in **Oracle Cloud Infrastructure (OCI)** covering compute, storage, networking, cloud security, **multicloud architecture** and infrastructure management; earned two Oracle certifications.

SELECTED PROJECTS

CloudForge – Mini Platform as a Service | *Python, FastAPI, Docker, MySQL, SQLAlchemy, JWT* — **Repository**

- Built a Render-inspired **PaaS** that clones a **GitHub** repo, builds a **Docker image** and deploys a **container** via **REST APIs**.
- Implemented **JWT authentication** with **bcrypt** hashing, protected endpoints and multi-user project ownership controls.
- Persisted deployments, build status and **build logs** in **MySQL** (SQLAlchemy); added container list/stop/restart APIs.

CloudOps AI – Cloud Operations & Governance Platform [IN PROGRESS] | *Python, FastAPI, boto3, Docker, pytest* — **Repository**

- Building a multi-tenant console for read-only **AWS** inventory (**EC2, S3, EBS, RDS**) using per-tenant **STS AssumeRole**.
- Implemented S3 security-posture checks (encryption, Public Access Block, public policy/ACL, versioning) and EC2 **security-group** analysis that fail closed on denied or malformed AWS responses.
- Hardened the API with bearer-token **RBAC**, rate limiting, security headers, a hash-chained **audit trail**, approval-gated **dry-run** remediation plans and **Prometheus** metrics.
- Configured **GitHub Actions CI** to run a 2,000+ test **pytest** suite and build a **non-root** production Docker image.

End-to-End DevOps CI/CD Pipeline | *Node.js, Express, GitHub Actions, Docker Hub, Render, Jest* — **Repository**

- Automated **Docker** build-and-push to **Docker Hub** on each push to main via **GitHub Actions** and encrypted **secrets**.
- Containerized a Node.js/Express service (node:18-alpine) with **Jest** tests, a /health endpoint and auto-deploy to **Render**.

Cloud Cost Prediction Bot | *Python, Telegram Bot API, REST, JSON* — **Repository**

- Built a **Telegram** bot that logs daily cloud spend in JSON and forecasts next-week **cloud cost** from a rolling 7-day average.

EDUCATION

MIT Art, Design & Technology University, Pune — 2024 – 2028 (Expected)
B.Tech in Computer Science & Engineering – Specialization in Cloud Computing (Third Year) — **CGPA: 7.9/10**

CERTIFICATIONS & ACHIEVEMENTS

- **Oracle Cloud Infrastructure Certified Foundations Associate** – Oracle — **Credential**
- **Oracle Multicloud Architect Professional** – Oracle — **Credential**
- **AWS Cloud Practitioner Essentials** – Amazon Web Services (AWS Training & Certification) — **Credential**
- **The Bits and Bytes of Computer Networking** – Google — **Credential**
- **Hackathons:** Smart India Hackathon 2024 & 2025 (Participant), SIH 2026 (Volunteer), GDG Pune 24-Hour Hackathon 2026; built *Cycra Health*, a PCOS early-risk trajectory monitoring app (React, Supabase).
